

FUWAI CMR GROUP

Director: Prof. Shihua
Zhao, MD, PhD

2
Associate prof.

6
Technicians

4
Attending doctors

3
Nurses

There are 16 full-time staffs in the department. Up-to date, a total of 8 doctoral and 4 master's students have graduated since 2004, and another 4 PhDs and 2 masters are candidates for graduation.

The present director, Professor Zhao Shihua is now leading the department team to cooperate and work hard and overcome the difficulties. In the near future, opportunities and challenges are coexisting, as the national team in this field, we have the responsibilities for leading the development of cardiovascular magnetic resonance imaging in China, and we also have the determinations to achieve this goal as the Departmental Dreams, Fuwai Dreams and China Dreams as well.

Department of Cardiac MR, Fuwai Hospital
Peking Union Medical College

State Key Laboratory of Cardiovascular Disease
National Center for Cardiovascular Diseases of China

This is our CMR group

Department of magnetic resonance imaging, Fuwai Hospital, is dedicated to clinical medicine, academic teaching and scientific research focusing on cardiovascular disease. It is not only an important part of image platform for the National Centre for Cardiovascular Diseases (NCCD) and State Key Laboratory of Cardiovascular Disease, but the doctoral and postdoctoral station approved by the Ministry of Education of China. The department includes whole body and full ages of MR examination, especially for cardiovascular diseases, including coronary heart disease, cardiomyopathy, congenital heart disease, arrhythmia, hypertension, pulmonary hypertension, cardiac masses, vascular disease, etc. This is the largest CMR imaging center in China with more than 6000 CMR cases/year. More than 200 papers were published in peer-reviewed scientific journal. Many textbooks, editorials and expert consensus were drafted or edited by our department in China. For example, the textbook cardiovascular magnetic resonance diagnosis is now known as the professional classic in this field in China.
