

Clinical Interests:

1. Characterization of Non-Ischemic Cardiomyopathies.
2. Left Atrial Angiography and Tissue Characterization.
3. Evaluation of Ischemic Cardiomyopathy.
4. Valvular Heart Disease.
5. Congenital Heart Disease.

Ibrahim M. Saeed, MD
Cardiovascular Consultant
Level III Cardiac MR

Joseph A. Soltys, PhD
MR Physicist

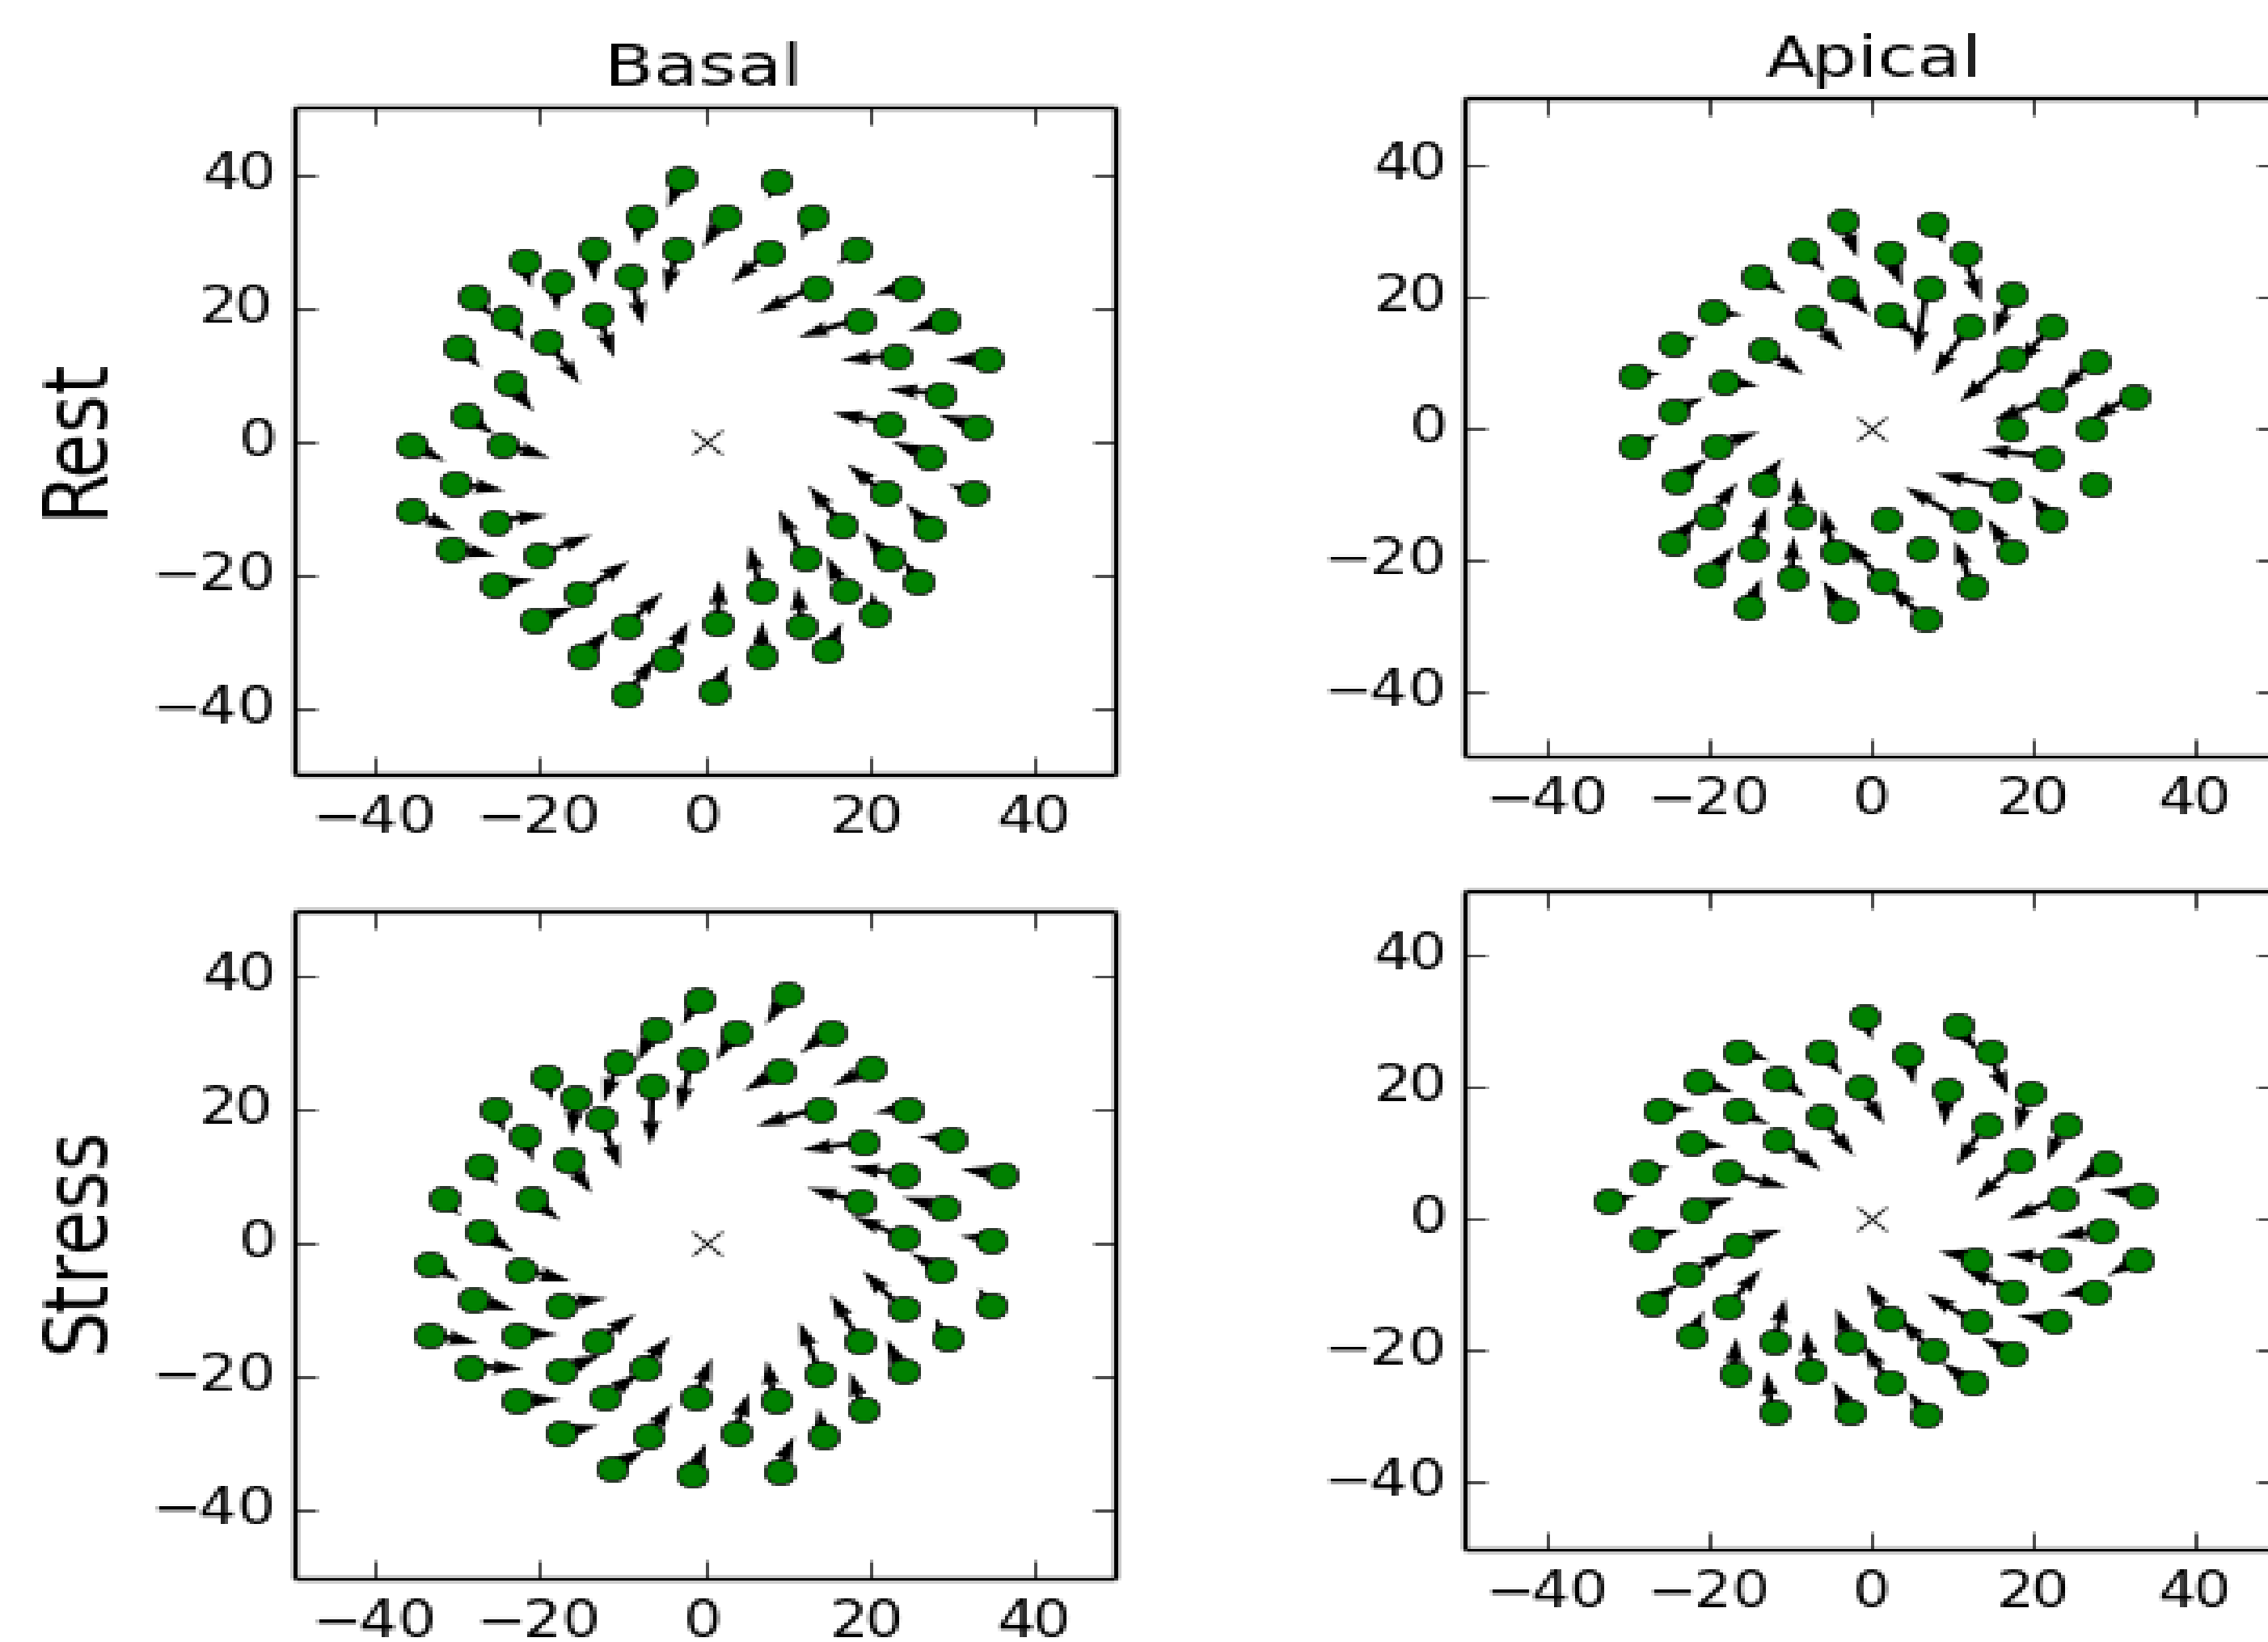

Tara L. Lawson, RT
Technical Director &
Lead CMR Technologist

Nicholas A. Orme, MD
Cardiovascular Consultant
Level III Cardiac MR

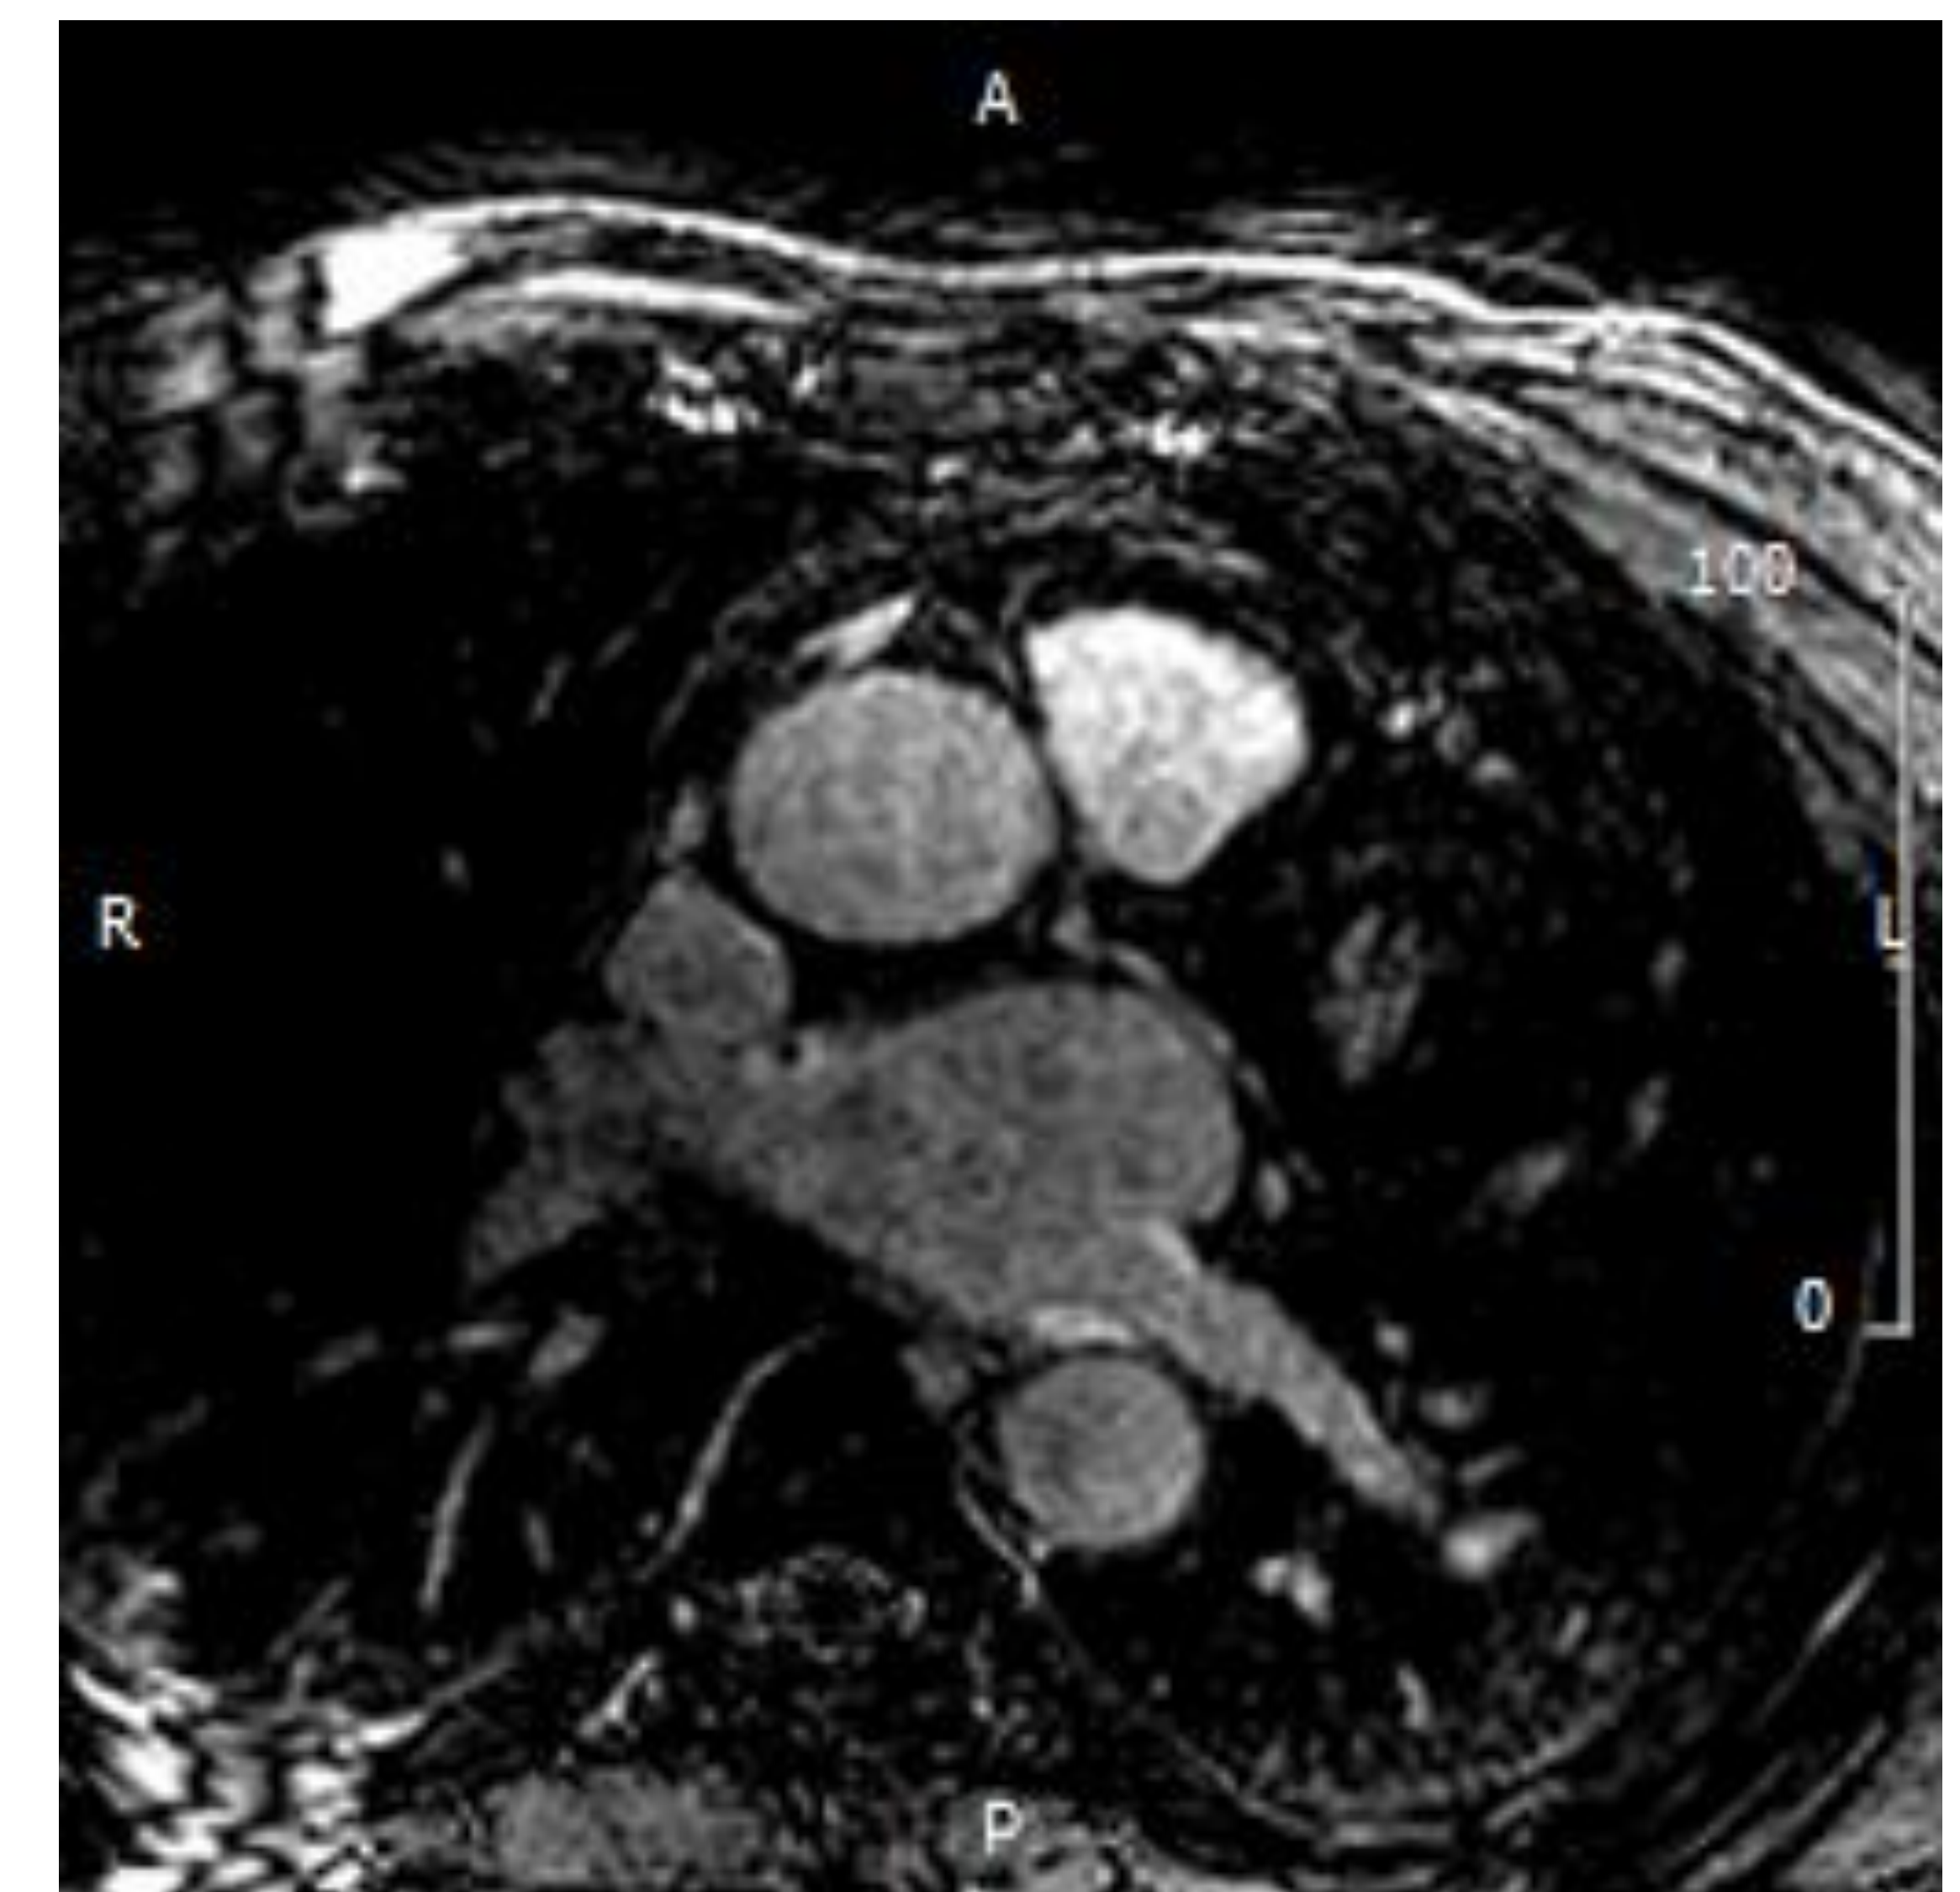

• Involved in ISMRM, SMRT, American Society of Nuclear Cardiology, and the American College of Cardiology

LV Strain with Regadenoson, SCMR 2016

Active Research:

1. Regadenoson Wall-Motion Abnormalities with Strain (in partnership with Astellas®).
2. Left Atrial Delayed Enhancement After Cryoablation (in partnership with the Missouri ACC and GE®).
3. Patient Registry Of Magnetic Resonance imaging in Non-Approved DEVICES (PROMeNADE)
4. MEASURE-HF: Evaluation of heart failure with Saxagliptin (in partnership with Astra Zeneca®)
5. Pharmacological Therapy of Duchenne Muscular Dystrophy (in partnership with NIH, Ohio State University and University of Kansas Medical Center.)

Pulmonary vein scar after cryo-ablation,
ISMRM 2015, HRS 2016

“In the era of efficient throughput for the evaluation of heart disease, development of CMR as a ‘one-stop-shop’ tool is not only a necessity, but an eventuality.”
